## Profile

---

**Front-End Developer** | Passionate about building **scalable, high-performance** web applications with a focus on **code quality, performance optimization, and modular development**.

Proficient in **HTML, CSS, JavaScript, Sass, React.js, TypeScript, and Webpack**, with expertise in **modern front-end architectures** and best practices. Skilled in creating **responsive, maintainable, and optimized** user interfaces and Strong problem-solving skills.

## Skills

---

**Front-End Development: HTML, CSS, JavaScript (ES6+), TypeScript.**

- **React.js Ecosystem:** Hooks, Context API, Component-based architecture.
- **Performance Optimization:** Lazy loading, Code splitting, Tree shaking.
- **Build Tools:** Webpack, Vite, Babel.
- **Version Control:** Git, GitHub.
- **Soft Skills :** Problem-Solving | Teamwork

## Certificates

---

. **Front-End Training – ITI**  
(3-month intensive program)

. **Front-End Development – Hassoub Academy**  
(*Performance & Responsiveness*)

## Projects

---

**E-commerce Website   Github-demo** [🔗](#)

- A modern online store with an intuitive UI, built using **HTML, CSS, JS, Webpack, and Sass** for optimized performance.

**Company Website**

- A professional corporate website using **HTML, CSS, JS, Sass, and Webpack**, ensuring fast loading and responsiveness.

**Coffee Verse – Coffee Company Website   Github-demo** [🔗](#)

A responsive, performance-optimized website for a coffee company built with **HTML5, Sass, Bootstrap 5**, and **Vanilla JavaScript**. Bundled using **Webpack** for fast load times and smooth cross-device experience.

Key features include:

- Fully responsive design for mobile, tablet, and desktop.
- Optimized performance with Webpack bundling.
- Modern, clean layout using Bootstrap and Sass.

This project highlights my skills in front-end development, responsive design, and performance optimization.

**Control Panel   Github-code** [🔗](#)

- A fully responsive admin dashboard for managing data, created with **HTML, CSS, Sass, Webpack, and JS**.

### Smart Tech Store      **demo** [↗](#)

A fully responsive e-commerce website for selling electronics. Built with **HTML**, **Sass**, **Bootstrap 5**, and **JavaScript**, and optimized using **Webpack**. The project demonstrates clean UI design, structured layout, and mobile-first performance.

### Portfolio Website      **Github** [↗](#)

- A sleek personal portfolio to showcase projects, crafted with **React.js** and **CSS** for a modern, interactive experience.

### React Islamic Prayer Times      **Github** [↗](#)

- A web app fetching prayer times from an API, developed with **React.js**, **HTML**, **CSS**, and **API integration**.

### Professional Product page

A sleek, responsive **Order Management Page** built with **HTML**, **CSS**, and **JavaScript**, featuring real-time validation, dynamic price calculation, and a seamless user experience for efficient order processing.
